**HEADSTART IN ART PROGRAM**

Emily Carr University of Art + Design and Coquitlam School District #43 are pleased to announce the continuation of a partnership that will see ECU offer a first year (Foundation) studio course, taught by Emily Carr faculty, at Gleneagle Secondary School in Fall 2020.

This course will be available to current Grade 11 or 12 students or recent graduates from any of the secondary schools in School District #43 and surrounding area. The course is equal to 3.0 foundation year credits at Emily Carr University and is particularly aimed at students considering post-secondary studies in visual art, media art or design. Students who achieve a B+ grade or higher will have the portfolio component of their ECU first year application waived.

**FNDT 106 Drawing & 2D Language**

**Day & Time:** Tuesdays, 6:00-8:50pm  
**Location:** Gleneagle Secondary School  
1195 Lansdowne Drive, Coquitlam  
**Dates:** September 15th to December 8th, 2020

This course introduces students to the methods, materials and concepts of drawing, both as a visual language and as a tool for enhancing perceptual awareness. While investigating process and developing a critical vocabulary, students will begin to acquire the skills to translate immediate observation and ideas into 2-dimensional form. In-class projects and assignments will encompass various aspects of drawing, while visual presentations and class discussion will introduce students to contemporary and historical ideas of art and design.

**ACADEMIC ADMISSION REQUIREMENTS**

This is a university level course. Students are expected to meet Emily Carr University academic admission requirements:

- English 11 or 12 (minimum C grade in most recent)
- PLUS two other Grade 11 or 12 academic courses
- PLUS two Grade 11 or 12 electives (Visual Art 11 or 12 recommended)
- Total overall grade point average in all subjects of 2.5 (C+ or 67%)

**Applicants must provide Diploma Verification as confirmation that they are going to meet academic admission requirements**

*Note: Students may apply having only completed English 11; however, English 12 and Grade 12 academic and elective classes are the final requirement for future admission to Emily Carr University.*

Qualified applicants will be admitted on a first-applied basis (date of submission to your high school counsellor's office). Space is limited to 20 seats.

**TUITION FEES**

Upon acceptance to the program, students are responsible for the full amount of tuition.

Domestic \$460.00 (includes supply kit)  
International \$1,664.00 (includes supply kit)

*Please note: some projects may require additional optional supplies not provided in the supply kit.*

# OCEAN WISE

## YouthToSea Summer Leadership Programs in 2020

- Ocean Wise is proud to announce that applications are open for our [YouthToSea Summer Leadership Programs](#) in 2020. Previously known as the AquaCamps Work Experience Program, additional staffing and resources have allowed us to elevate our previous program to offer more training, coaching, and professional development opportunities. The new program still meets all the curriculum requirements for the Work Experience Program.
- These programs are designed to offer youth (15-18) an opportunity to build their personal leadership, problem-solving and life skills. Youth in the program will participate in our summer AquaCamps programming at the Vancouver Aquarium, shadowing Children & Youth Educators to learn more about working with children in an educational capacity. Participants will expand their social network, increase their marine conservation knowledge, connect with their community and gain employment skills.
- Supported by the Government of Canada through the Canada Service Corps initiative, all training, certifications and retreats are fully funded, and there are no costs for participants.
- Youth who complete the Leadership Program will receive:
  - 120+ hours of volunteer service
  - Ocean Wise Animal Handling Certification
  - WHMIS Certification
  - CAN Autism Training
  - Ocean Wise Leadership Program Certificate of Completion
  - Opportunity to join member-only workshops/events at the Vancouver Aquarium
  - Valuable work experience and professional contact

There is also an opportunity to complete an original ocean conservation service project of their choosing with an Ocean Wise mentor.

More information including how to apply, placement dates/times, and FAQ's can be found at:

[education.ocean.org/youthtosea](https://education.ocean.org/youthtosea)

# OCEAN WISE continued

We are closely following all COVID-19 development and currently the Summer program will run as planned. However, please be aware there may be a change in dates/opportunities for this program as the provincial and national pandemic response changes. We will keep all applicants updated throughout the process. If we are unable to reopen the Vancouver Aquarium before summer begins, participants will be allowed to withdraw their application to the program, or we can help mentor you through an ocean service project to meet your 120 hours of service.

# BACHELOR OF ENGINEERING IN SOFTWARE ENGINEERING

## Create your own path with a career in Software Engineering

Do you want a career that allows you to make an impact, and that is part of one of the fastest growing and most in demand professions in Canada? Do you want to contribute to the ever-growing need for software based solutions across a variety of industries and professions?

With a focus on skill-based learning and a commitment to small class sizes, the Software Engineering program at TRU provides a hands-on experience led by industry professionals. By blending engineering, business, computing science, project management and quality assurance, students receive a well-rounded and multi-faceted education that equips them with skills needed for the workplace.

### EXPERIENCE HANDS ON LEARNING

The program's focus on experiential learning includes two mandatory co-op work terms in the fourth year of the program, which puts students in the position to be a paid employee before graduation and have opportunities to test-drive the wide variety of career options available in software engineering.

#### Career Paths in Software Engineering

- Manufacturing
- Research
- Medicine
- Automobiles
- Banking
- Technology companies such as Google, Amazon and Facebook
- Entertainment

### THE TRU SOFTWARE ENGINEERING ADVANTAGE

- Offers strong foundations in principles and practice of software systems development, and related computing technologies.
- Students develop knowledge of the tools, technical skills and competencies required to design, develop, test and maintain cycles of software product.
- Emphasis on project-based learning practices that apply theoretical concepts to practical problems.
- Co-op work terms to gain relevant, paid work experience in industry.
- One-year design capstone project from real world industry to gain in-depth experiential learning.
