Leading Learners

- 'Leading Learners is taking in student ambassadors for our new school year, on a roll-in basis. This is an opportunity available for students in high school and post-secondary to meet and engage with students on the national level. Each week, ambassadors are given a question to reflect upon their leadership and learning skills. As an example, 'what are three personal skills you believe you are strong in?' Through supervised chat-based messaging, Student Ambassadors are able to view responses from other students across Canada and gain insight on how they can build their leadership skills. By engaging students at Leading Learners, we bring new energy into our mission-based work while developing future leaders of your communities.'
- **For additional details and the application page, [click here](#).**
Or visit www.leadlearners.ca/ambassadors.'

To date, our impact is to over 100,000 Canadian students, and we are looking forward to accepting students into our program throughout your school as well. To get to know our full story and values at Leading Learners, visit our about page at www.leadlearners.ca/about, or our website, www.leadlearners.ca.

Calling all high school students!

Volunteer Opportunity!

Are you looking for a meaningful way to engage your students with an impactful COVID-safe volunteer opportunity? Do you have 5-minutes to narrate a digital storybook that will support over 50,000 learners around the world, including 37,000 learners in underserved and refugee communities?

Hello! My name is Emily and I work with Simbi Foundation, a UN-partnered nonprofit that collaborates with schools around the world to meet their education needs with solar-powered & research-driven solutions. So far, we have directly supported over 37,000 learners in refugee settlements and remote areas of Uganda and India with our BrightBox solar-powered classrooms, learning resources, and Simbi reading software and we need your help!

We would like to invite you to participate in our #GiftYourVoice Read-a-Thon. Can we join together to read 1,000 books during the month of December to support over 50,000 learners in 64 countries on their reading journeys?

All participating students will receive a signed volunteer certificate for their time spent reading! Click the magic link to join the group here:
<https://read.simbi.io/TjYzaWlxc1hqbA-->

You can find all the resources you need [right here](#) on our website, including a starter video that runs you through how to “gift” your voice to make an impact!

We have English and French books that need narrations.

SFU

Before heading into the holiday season, the Faculty of Arts and Social Sciences at SFU wanted to provide the parent community with the opportunity to connect with one of our FASS professors online for a **Parents and Supporters Q&A!** In this session, prospective students and their parents/supporters can get answers to their FASS questions and understand how they can be more successful in their first year of university. The session will be hosted by Dr. Danielle Murdoch from our Criminology faculty and will take place on **December 15th from 5:30 – 6:30PM**. Registration can be found online at: www.sfu.ca/fass/students/prospective-students/e-sampler/future.html.

Occupational First Aid (OFA) - Level 1

Occupational First Aid (OFA) Level 1 is a one-day course designed to cover all medical techniques considered to be within the responsibility of the Occupational First Aid Level 1 Attendant as required by the Workers' Compensation Board of BC (WCB).

Given CoVid19 and safety protocols:

- class size will be limited to 8 students
- gloves and masks are mandatory
 - trainer will supply both these PPE items (students may bring their own mask if preferred)

Course information:

- time: 8.30am and runs until 4.30pm
 - with appropriate coffee and lunch breaks... bring your own food or there is a fast-food restaurant nearby
- age: must be at least 16 years old at the time of the course
- cost: \$80 + GST (\$84 total)
- location: Universal Health & Safety at #201 - 4199 Lougheed Hwy, Burnaby
 - 10-minute walk from Gilmore Skytrain station

Main topics covered include:

- Basic Life Support (CPR - A) -- CPR with Automated Defibrillator Training
- Small Wound Management
- Critical Airway, breathing and circulation interventions with C-spine management

In order to be successful, participants must demonstrate practical skill competency and achieve 70% on a multiple choice exam. On successful completion of the course, participants receive a 3-year certification.

- certification: government-issued photo ID is required to receive a certificate (ex: driver's license, passport, NEXUS, BCID,...)

Visit the Sd43 Trades Page for more information and dates.

THOMPSON RIVERS UNIVERSITY

BACHELOR OF ENGINEERING IN SOFTWARE ENGINEERING

Create your own path with a career in Software Engineering

Do you want a career that allows you to make an impact, and that is part of one of the fastest growing and most in demand professions in Canada? Do you want to contribute to the ever-growing need for software based solutions across a variety of industries and professions?

With a focus on skill-based learning and a commitment to small class sizes, the Software Engineering program at TRU provides a hands-on experience led by industry professionals. By blending engineering, business, computing science, project management and quality assurance, students receive a well-rounded and multi-faceted education that equips them with skills needed for the workplace.

EXPERIENCE HANDS ON LEARNING

The program's focus on experiential learning includes two mandatory co-op work terms in the fourth year of the program, which puts students in the position to be a paid employee before graduation and have opportunities to test-drive the wide variety of career options available in software engineering.

Career Paths in Software Engineering

- Manufacturing
- Medicine
- Banking
- Entertainment
- Research
- Automobiles
- Technology companies such as Google, Amazon and Facebook

THE TRU SOFTWARE ENGINEERING ADVANTAGE

- Offers strong foundations in principles and practice of software systems development, and related computing technologies.
- Students develop knowledge of the tools, technical skills and competencies required to design, develop, test and maintain cycles of software product.
- Emphasis on project-based learning practices that apply theoretical concepts to practical problems.
- Co-op work terms to gain relevant, paid work experience in industry.
- One-year design capstone project from real world industry to gain in-depth experiential learning.
