Monday, January 22nd is the Numeracy Assessment day for students in a semester 1 Grade 10 or 11 Math class- photo ID required. The Learning Opportunity Time scheduled Tuesday/Wednesday all day and Thursday afternoon allows students to meet with their teachers and counsellors. Teachers will be available to meet with students for either remedial or supplementary consultation, enrichment, to complete incomplete work or projects. IB teachers will directly articulate relevant IB student schedules for various meeting times, activities and deadlines. IB 11 students will be working on IOPs or IA's. Adjustments to final marks can be made until the report card distribution on Monday, January 29th.

In addition to the Learning Opportunity Time, throughout the entire week - students can use their time to schedule appointments with counsellors, coordinators, and the Career Facilitator; use the library and computers for independent work; continue with assigned work in linear courses; work on group projects; finish the Grad Transition Plan (gr 12s); or attend department tutorials. Students should talk with their respective teachers to ensure they know when and where they will find them during this very busy week.
