## ROCKETS SOAR at PROVINCIAL FINALS!

Congratulations to our Rochester's **Odyssey of the Mind** Champions. Our team of 7 includes (from left to right): Theodore Precourt, Evan Vellescig, Ellis Wood, Brody Rotzien, Taylor Kim, Ean Vellescig and Trevor Startin. The team formed in mid-January to work together on solving a long-term problem (they chose to design vehicles to perform necessary tasks) and practicing spontaneous problems (they prepared themselves to solve a spontaneous problem on the day of the tournament).

Our team competed at the Qualifying Tournament on March 4 and at the Provincial Tournament last week on April 8. As a result of their collective effort, dedication and hard work, the team won Gold (1st Place) in their division and an opportunity to compete at World Finals!

The team has decided to compete at World Finals in Michigan from March 24 to 27 and are proud to represent Rochester Elementary and Canada. We all wish them luck and hopefully can support them with their current fundraising efforts!

The team also wants to acknowledge Ben and Rhyan Holmes for their commitment to babysitting their coach's kids during practices.

Our hill of weeds and dirt overlooking the basketball court, currently known as Sad Slope is undergoing a transformation. As well, six new trees will be planted in the next coming days.

### **Scent Reminder**

In a school of more than 450 students and staff, it is not surprising to know that a portion of our population live with allergies and sensitivities to a variety of foods and scents. These conditions range from mild to life threatening and that is why we are diligent at the school about knowing who has these conditions and the necessary measures to support them.

At this time, we have a number of children and staff who have scent sensitivities. Strong odours from paint, perfume, colognes, fabric softeners and detergents, as well as hair products can trigger adverse reactions such as severe headaches and nausea.

Fortunately, most children at the elementary age are not using these products but some do. Some enthusiastic K's and grade 1's have been known to splash on a bit of fragrance unbeknownst to their parents!

Please help us help those with scent sensitivities by ensuring your child comes to school without these strongly scented products. There is no way of making a school scent free but we can all help making the school more scent sensitive.

Your understanding and cooperation in this matter are appreciated.
